

BRAINERD DAILY DISPATCH.

VOLUME 7, No. 32

BRAINERD, MINN., WEDNESDAY, JULY 10, 1907

PRICE TWO CENTS

SITUATION IS ACUTE

Opinion of the Delegates to the Peace Conference.

ABSORBS THEIR ATTENTION

Envoys at The Hague Pessimistic Over Outcome of American-Japanese Dispute—Japan Warns Washington She Must Control California.

London, July 10.—The correspondent of the Daily Telegraph at The Hague sends in a column dispatch which purports to reflect the views prevailing there on the Japanese-American situation, which he declares to be more absorbing than the conference itself. The correspondent says that as a result of his inquiries he learns the situation is really strained, although both governments are trying to conceal the fact. He asserts that since June 20 the question has entered upon an acute phase. Japan has been sending the United States extremely categorical notes stating without bitterness, but in the clearest terms, that unless Washington is able to control California, Japan will consider herself free to act directly against California.

Nothing, however, has been exchanged precluding a pacific settlement, but many of the Japanese at The Hague are of the opinion that the Japanese government ought to act without delay and not give America time to utilize her vast resources and economic potentiality, a hundred fold greater than Japan's, to perfect warlike preparations.

In an editorial article the Telegraph says it does not identify itself with the statements of its correspondent at The Hague, believing them to be charged with undue dependency, at the same time the paper continues they are made upon a notable authority and they cannot be read without profound uneasiness. The Telegraph is convinced, however, that the statesmanship of both countries will be strong enough and the instinct of the two great nations sane enough to hold mad chauvinism in leash.

"Nevertheless," the paper declares, "it is impossible to deny the danger of the situation. The present peace conference from its opening has created disagreements and friction tending to make worse instead of improve the relations of the powers. The last assembly at The Hague was followed by great conflicts, we can only pray that the present may not be succeeded by more terrible calamities."

RULING CLASSES TOO WISE

Congressman Hull Says Japs Will Not Fight the United States.

Des Moines, Ia., July 10.—"Neither Japan nor the United States wants war at this time," said Congressman J. A. T. Hull, chairman of the house committee on military affairs. "There is a big element in Japan who would welcome war but the ruling classes are too wise to pick a quarrel with the United States."

"If there is war we will at first lose the Philippines and the Hawaiian Islands, but we would triumph in the end, for the United States would build warships and fight out a victory. We are the only nation which can conduct a war and get rich at the same time."

Says Aoki Will Go Home.

Tokio, July 10.—The Nichi Nichi prints the statement that Viscount Aoki, Japanese ambassador to Washington, is expected to return to Japan next October.

CATHOLIC EDUCATORS.

Organize an Association at a Meeting in Milwaukee.

Milwaukee, July 10.—Leading Catholic educators, including many distinguished prelates from throughout the United States, at a general meeting of the fourth annual convention of the Catholic Educational association unanimously adopted a constitution as recommended by the executive board of the organization, the work embracing a period covering four years.

The name of the association is the Catholic Educational association of the United States. The object of the association shall be to keep in the minds of the people the necessity of religious instruction and training as the basis of morality and sound education and to promote the principles and safeguard the interests of Catholic education in all departments.

To advance the general interests of Catholic education, to encourage the spirit of co-operation and mutual helpfulness among Catholic educators, to promote by study, conference and discussion the thoroughness of Catholic educational work in the United States. To help the cause of Catholic education by publication and circulation of such matter as shall further these ends.

A resolution was adopted empowering the executive board to incorporate the association along the lines of the constitution.

OPERATOR ARRESTED.

Accused of Acting With Mrs. Carter in Disposing of Stolen Money.

New York, July 10.—The police have arrested Harry Kirkstein, a telephone operator, twenty-two years old, on a charge of acting with Mrs. Laura Carter in receiving and disposing of \$5,000 stolen from the Windsor Trust company by Chester B. Runyan.

Kirkstein was examined by Assistant District Attorney Corrigan. He said that he had lived with Mrs. Carter at a flat in West Sixty-sixth street about a year and a half.

On July 4, he said, Mrs. Carter telephoned him to meet her the next morning, which he did. She told him, he said, that the "good thing" was Chester B. Runyan, the missing teller of the Windsor Trust company, and that he had given her \$5,000 which she had in her handbag. Kirkstein said he advised her to take the money to the trust company and tell the officials where Runyan was. She replied, Kirkstein said, that she would return the money to Runyan and then give him up. He did not see the money and had no idea whether she returned it to Runyan.

IN TRIAL OF JUDGE HARGIS

Stated That the Prosecution Will Spring Many Surprises.

Sandy Hook, Ky., July 10.—Special Judge W. B. Moody has decided to continue the case of Judge James Hargis, charged with killing Dr. W. B. Cox at Jackson four years ago, until next Monday and instructed the commonwealth to have their witnesses present and ready for trial. The most important witnesses for the commonwealth are scattered over four or five states, but every effort will be made to get the witnesses on the ground by Monday morning. From Attorney Bird it was learned that the prosecution would have many surprises to spring during this trial. It is reported that another eye witness will be introduced to prove the confession of John Smith, which caused the indictment of Judge Hargis and others.

Workman Electrocuted.
Council Bluffs, Ia., July 10.—Richard D. Gainer, an electrician employed by the Citizens' Gas and Electric company, was electrocuted by coming in contact with an electric light wire while working at the base of a pole.

BLOW FOR DEFENSE

Court Refuses to Admit Certain Evidence.

DETECTIVE WAS ACCUSED

James McParland Charged With Being Guilty of Trying to Manufacture Evidence Against William D. Haywood.

Boise, Ida., July 10.—The defense in the Steunenberg murder case charged that Detective James McParland has been guilty of an attempt to manufacture testimony against William D. Haywood, but was unsuccessful in getting the basis and details of the charge before the jury.

Alva A. Swain, a newspaper correspondent at Denver, was called to the stand and questioned as to a conversation he had with Detective McParland in Denver last fall. Senator Borah for the state objected to the conversation on the ground that no foundation had been laid for it.

Clarence Darrow for the defense, who was examining Swain, explained that the testimony was offered for the purpose of showing a conspiracy existed between the mine owners and the Pinkertons to secure the conviction of the prisoner.

"McParland approached this witness in an attempt to manufacture testimony," he declared, "and I believe we have a right to show it."

Judge Wood said there was nothing in the evidence that furnished a proper foundation for the introduction of such testimony and sustained the state's objection. The defense took an exception and said they would later make another attempt to secure the admission of Swain's testimony. Counsel for the defense are evidently counting on reaching the matter through McParland himself, but it is quite probable that the state will not call McParland as a witness.

It is claimed by the defense that McParland told Swain that he had a letter from Harry Orchard saying that when Haywood paid him for the Vindicator job he took him to one of the Denver banks to draw the money and that when they came out of the bank Swain was standing at the door and saw them. It is said that Swain told McParland that he could not remember the incident, whereupon McParland impressed him with its importance as evidence and significantly urged him to recall it and become a witness in the case.

Denied by McParland.

Detective McParland denies that he ever suggested anything improper to Swain. He says he got the letter as described by Orchard, who wrote that Swain was at the door of the bank on the day in question, there being a run on the bank and that he believed Swain might remember having seen them. He says that when he went to see Swain the latter said that he would not tell whether he remembered the incident and asked for another interview. McParland declared that he there dropped the matter and did not again see Swain.

Allen F. Gill, formerly master mechanic of the Tiger and Poorman mine and later city engineer of Spokane, and his wife were also witnesses for the defense. They jointly related that Harry Orchard attempted to sell them his interest in the Hercules mine in February and March, 1899, which was just prior to his departure from the Coeur d'Alenes, and Mr. Gill, who saw Orchard in Spokane a month before he killed Steunenberg, testified that Orchard said that it was because of Steunenberg that he lost his interest in the Hercules.

Almost the entire day was given over to the reading of the rest of the San Francisco depositions. The men who built the Lindbergh flats, the plumbers who put in the lighting system, the firemen who came after the explosion and the contractors and their men who made the repairs, all deposed at great length. The weight of their depositions seems to indicate a gas explosion at the Bradley home, but the whole question will be fought before the jury. The last of the deponents knew Harry Orchard and from him heard the story of the Hercules mine with the usual threat that he was going to fix Steunenberg for driving him out of the country.

TWO DEATHS FROM HEAT.

Ten Other Persons Are Prostrated at St. Louis.

St. Louis, July 10.—Two deaths and ten prostrations were reported here as a result of the heat, the thermometer registering 93 degrees. Mrs. Perry W. Martin of Olney, Ill., was overcome and died in an ambulance on the way to the city hospital. Maurice Krite, a hardware dealer, died at his home. One of those prostrated is J. C. Hamlin, formerly attorney general of Illinois, who was stricken at the Planters' hotel. His condition is not serious.

STRIKE WILL BE EXTENDED

Next Walkout Will Occur in Some Eastern Center.

San Francisco, July 10.—Indications are that the telegraphers' strike will spread and that the next walkout of operators will occur in some large Eastern center. A committee of Western Union operators called upon I. N. Miller, Jr., assistant general superintendent of the Western Union Telegraph company, for the purpose of discussing grievances.

The committee was met by Chief Operator H. J. Jeffs, who read a note conveying what answer Miller had to say to a committee, which was as follows:

"Mr. Miller declines to meet a union committee as such, but is willing to extend a courteous hearing to each operator now out on strike and will consider favorably the reinstatement of any and all who come to him giving assurance of their personal desire to be reinstated in their positions. But he reserves the right to refuse to receive or reinstate any one to their positions who are undesirable and that matter must be absolutely left to his judgment as assistant general superintendent."

After the result of the meeting was made known to President S. J. Small of the Commercial Telegraphers union he sent a telegram to President Roosevelt claiming that every honorable means had been exhausted to secure an adjustment and that he had no hope of a settlement without an extensive strike in answer to the demands of the telegraphers throughout the country that the strike be made general. He will leave at once for Chicago.

STRIKE OF TELEGRAPHERS

Indications Are That It Will Be Fought Out in Chicago.

Chicago, July 10.—The indications are that the controversy between the commercial telegraph companies and their operators will be fought out in Chicago. With the announcement from the Pacific coast that Superintendent Miller had refused to meet a committee from the union and that President Small would leave for Chicago, came a message from Mr. Small to the president of the local union to call a meeting for Sunday to vote on the strike proposition. The message also stated that President Small would be present at the meeting and would address the members of the union. President Small also informed the local officials that he had requested Grand Chief Perham of the Order of Railway Telegraphers to be present at the meeting. The request for the official of the railway union is taken to mean that he will be asked for the moral support of his organization should a strike be authorized.

MAY ENJOIN STATE OFFICER

Court Rules Against Attorney General of Minnesota.

St. Paul, July 10.—Judge William Lochren of the United States circuit court has ruled that the attorney general of Minnesota comes within the proceedings instituted by the stockholders of railroads doing business in Minnesota to restrain the enforcement of the new passenger and freight rates. After argument by counsel had been completed on that phase of the proposition the judge gave his decision from the bench that if an injunction be issued the attorney general will be a party to be enjoined. He held that under the decisions of the United States supreme court the suits in question are not against the state, but against such officers as threaten to enforce the law which is claimed to be unconstitutional.

The ruling disposed of an important preliminary point and now leaves the way clear to try the suits on their merits. It was the contention of the attorney general that the suits in fact were directed against the state in contravention of the Eleventh amendment of the Federal Constitution, which provides that a state cannot be sued by a citizen of that state or any other state unless by consent of the state. Counsel for the stockholders attacked this contention, asserting that the attorney general was made a party to the action in his official capacity.

The question whether the attorney general is within the jurisdiction of the federal court was argued for two days.

COMPENSATION TOO SMALL

Ocean Lines May Abolish Sea Post-offices.

Washington, July 10.—Postmaster General Meyer has announced that the North German Lloyd and Hamburg-American lines had informed the German postal administration that on Jan. 1, next, they would terminate the present agreement relative to the maintenance of sea postoffices on their steamers because the compensation allowed was not deemed sufficient. The companies, however, have made an offer of a rate at which they will

More Bargains

In our Bargain Basement

We secured some more splendid bargains for our Bargain Basement. This time they are travelers samples purchased at a big reduction and offered to you on the same plan.

50c Belts 19c

We secured a large line of ladies belts at a lower price than we ever had them before. In this lot are 40c, 50c and 65c belts which will be sold at but 19c.

Underwear

We also secured a lot of samples of summer underwear which will be sold at one third less than regular selling prices. These are indeed bargains.

Hosiery

Ladies' and childrens hosiery---just sample pairs---We doubtless will have something in the lot to please you and you will secure these at a decided reduction.

Fire Sale

We still have many articles which were water soaked during the recent fire which are being offered at very low prices. If there is anything in the lot that you can use you will secure a bargain.

The basement is the place where we display the special things we have to offer. You'll always find bargains there---Visit this section of the store frequently.

H. F. Michael Co.

continue the service. Mr. Meyer has decided to send Second Assistant Postmaster General McCleary to Germany to make a new contract.

RECEIVED BY ROOSEVELT.

Commerce Commission's Report of Harriman's Railroad Deals.

Oyster Bay, N. Y., July 10.—President Roosevelt has received the report of the interstate commerce commission setting forth facts and conclusions arrived at as the result of the investigation of E. H. Harriman's alleged manipulations of certain railroad finances. A copy of the report has been sent to Attorney General Bonaparte and the statement was made by Secretary Loeb that Mr. Bonaparte's recommendations as to future proceedings by the government doubtless will be awaited by the president before he directed any further move.

The conclusions of the commission, it was added, will not be made public until the attorney general's recommendations are received.

Shot by His Playmate.

Albany, Minn., July 9.—The five-year-old son of Mr. and Mrs. Anton Drimel of this place was accidentally shot in the forehead by his playmate, George Newirth. The young boys were playing with a .22-caliber revolver which they thought was not loaded. The bullet pierced the skull just above the right eye. The boy is in a serious condition.

Heat Fatal to Infants.

Louisville, Ky., July 10.—The torrid temperature that has prevailed in Louisville since last Friday continued Tuesday, the maximum being 96. The maximum temperatures since Friday have been 96 and 97. The heat has been fatal to a number of infants and many prostrations of adults have been reported.

Alleged Murderer Arrested.

New Orleans, July 10.—The police at Hanson, La., have arrested a man who they claim is Angelo Incroscateray, the Italian charged with choking to death the kidnapped child, Walter Lamana. The prisoner had been living for days in swamps, refusing to give his name.

LUKEN'S BIG STORE.

What brought this store

The Confidence of the People;

people our thoughts in buying, our aim in selling is to find your wants and then meet them as no one else can meet them. We weigh every word thoughtfully in the scale of fact. We measure carefully every value we put before you. As a result this is a Sincere Store. People get what they want here at prices they want to pay and if goods are not satisfactory YOUR MONEY BACK.

Ivory white dinner plates doz.....35c	Large size towels 10c and.....5c
Polished glass tumblers 6 for.....25c	Swift's Pride Soap 8 for.....25c
Fancy glass vases 10c and.....5c	Large tin pails.....10c
Fancy butter dishes.....10c	Sprinkling cans 10c and.....20c
2 and 3 pound butter jars.....5c	Canvas gloves per pair.....5c
Genuine Ball Mason fruit jars dozen	Thousands of articles on display at
6 piece dec. chamber sets.....\$2.14	5c and 10c

Space will not permit us to mention all the grand bargains we are displaying. You are cordially invited to call and look over our stock. We want you to know where the Headquarters are---where it will be appreciated as well as \$1.00. We want the trade of the people and we will get it if good goods and low prices will do it.

LUKEN'S BIG STORE,
Crockery, Glass, Tin and Hardware
Front Street

Important Role In Health

It cannot be denied that the food we eat plays an important role in health. Foods that possess great nourishing power and other properties which are essential to health are the ones to be selected for our daily diet.

DR. PRICE'S
WHEAT FLAKE CELERY
FOOD

is the proper food for all classes as it contains the essential elements for the support of life and maintenance of health that is found in wheat.

Palatable—Nutritious—Easy of Digestion and Ready to Eat
Can be served hot. Put in a hot oven for a few minutes; or cook in boiling milk.

WEDNESDAY, JULY 10, 1907

The Weather

Forecast—Fair north showers south portion tonight and Thursday.

THE state board of health will endeavor to stop rummage sales on the ground that they spread disease. Good idea.

WE may not have war with Japan but if it turns out that way it will be too bad for some of the "war editors" who have worked so earnestly for it.

IF Orchard has lied about all these murders he has confessed to be entitled to almost as heavy a penalty as though they were really committed by him. In either case he isn't a man a fellow would care to tie up to.

THE state board of health would do away with quarantine restrictions and enforce compulsory vaccination, claiming that smallpox will not spread in a well vaccinated community. This looks like a foolhardy experiment.

THE improvement by the paving of Sixth street will be appreciated more by the people of this city as the years go by and they have to travel some of the sandy avenues that lead from the city in other directions. But it may be an incentive to more work along this line, which is one of the best improvements any city can undertake.

THE advertising Mayor Schmitz, of San Francisco, is getting is certainly far-reaching but it is not the kind men would wish, still in his remarks after being sentenced to the penitentiary he announced that he would be a candidate for re-election this fall. With a five year term behind the bars facing him it would look as though he would be somewhat handicapped.

THE St. Paul boy whose mother fired off his entire collection of Fourth of July explosives which were in his rear pocket, by the vigorous application of a slipper, thinks he got his money's worth but he would rather explode them himself—besides the aid of the fire department and the family physician would have to be called in in either case and the expense would be the same.

AMONG the many valuable things lost by THE DISPATCH in the recent fire was the large number of cuts of prominent people, the accumulation of years, some of which money cannot replace. In this collection of half-tones was the cut of U. S. Senator Knute Nelson, and of the entire number of cuts both of buildings and people, of which there

were probably 150, this was the only one that was recovered from the wreckage and it was in perfect form, all the others having been completely destroyed. You just can't lose Knute Nelson.

THE DISPATCH desires its old patrons to understand that while we are but temporarily located in the present quarters on Sixth street in the Dressen building opposite the post office we are prepared to take care of any business that they may have to offer, and can guarantee the delivery of the same "on time." The idea may be with some that owing to the total destruction of our plant a delay will follow the placing of an order for job work and in order to correct it the statement is made that we already have a complete job outfit in working order with all the new faces of type. Come up and see us.

LOCAL NEWS NOTES.

Rent a 22 Rifle at King's. 23tf
Ed. McKay returned to his home at Smiley yesterday.

Wm. Murray was down from Smiley on business yesterday.

C. M. Patek went to Chicago on business this morning.

Tom King has opened a livery stable in the James Slaughter barn.

E. D. and Mrs. French, of St. Cloud, are guests of Editor and Mrs. Kenney.

See those weedless Bass Hooks at King's. Sure things. 23tf

Will pay good wages to competent girl in family of four. 401 Holly St. 32tf

E. O. Webb went to Smiley yesterday. He has rented a cottage there and his family will spend the summer at Smiley.

Ella Albertson was operated on at St. Joseph's hospital for appendicitis and is improving rapidly. The young lady is a daughter of C. J. Albertson.

Card tables and folding chairs for rent at D. M. Clark & Co. 185tf

Paul Woerner went to the Northern Pacific hospital today to undergo a surgical operation, which will probably be performed tomorrow.

Geo. M. Walker, of Sand Point, Idaho, arrived today to join his wife who arrived Sunday in a visit to his mother, Mrs. S. Walker.

Miss Cora Sather, who has been visiting the Misses Eunice and Isabel O'Connors, departed today noon for her home in Portland, Oregon.

Carefully compounded and packed by machinery. Always good, and always uniform. Hunt's Perfect Baking Powder—made in Minneapolis.

Order your awnings from D. M. Clark & Co. 235tf

Carlos Avery, executive agent of the state game and fish commission and publisher of the Hutchinson Leader, was a DISPATCH caller this morning.

The many friends of St. Hallett, who has been very dangerously ill for some days, will be pleased to learn that he is somewhat improved and that there are now hopes of his recovery.

W. E. Erickson went to Rush City this morning. His family has been visiting there for the past three weeks and he says they show no signs of getting homesick so he had to go after them.

D. M. Clark & Co., largest installment house in the city. Goods sold on easy terms. 233tf

Mrs. Ann Clark and Miss Emma Clark left this morning for Minneapolis where they will be joined by Mrs. Roberts, a sister of the latter, and the party will go to Montreal by way of the great lakes.

Gilmer & Welsh have disposed of their saloon on Laurel street to the Brainerd Brewing Co., who have placed Thomas McIntyre in charge. Messrs. Gilmer and Welsh will devote that time to teaming and logging.

Wanted: A live energetic man as general agent for a conservative, up-to-date Life Insurance Co. for this or other territory in the state. Apply to Taylor & Hamilton, managers, 704 Guaranty Bldg., Minneapolis, Minn. 30tf

Attorney Geo. W. Peterson, of Long Prairie, was in the city today on his way home from Duluth. Mr. Peterson is attorney for John Mattson, of this city in his personal damage suit against the Northern Pacific Railroad company which will be tried in the federal court at Duluth next week.

Carlos Avery, executive agent, O. J. Johnson, president, S. F. Fullerton, superintendent of fisheries, C. W. Stanton and J. H. Grill, members of the State Game and Fish Commission were in the city this forenoon on their way to Deerwood for the purpose of inspecting the site for the establishment of a third fish hatchery.

Invitations are out for the wedding of Charles Rice, of this city, and Miss Hattie Welliver, of Flak. The ceremony will take place at the home of the bride's parents, Mr. and Mrs. H. W. Welliver at high noon, Monday, July 15th. The bride is a well known Crow Wing county school teacher and the groom a son of Geo. Rice and an employe in the office of Auditor Downie of the Minnesota & International railroad.

What came near being a serious accident occurred yesterday at Brady lake near Merrifield, where work on the big ditch is in progress. After the lake was tapped and the water was rushing into the ditch E. H. King attempted to wade the channel but the current was strong enough to carry him off his feet. L. Bedore was below King and succeeded in rescuing him from what might have been a fatal accident.

THE DISPATCH is in receipt of information from J. L. Smith that the Sleeper block, recently completely destroyed by fire, will not be rebuilt this year. In the meantime the property is for sale but if Mr. Smith finds that he cannot dispose of it to an advantage within the next six or eight months he will then rebuild the block. It is to be

regretted that the building is not to be replaced at once as the site is one of the most prominent ones in the city and while the premises are to be cleaned up the vacant block in the heart of the city will be unsightly, but as the property is too valuable to long remain vacant it is not thought that it will be many months before the building will be replaced. In the meantime the tenants who expected Mr. Smith to rebuild will have to look for quarters elsewhere.

JULY 21st
Will be the last drawing for
THE GOLD DUST COUPONS
Everybody holding Coupons please get them in by that date.

Notice
On account of not being able to get help I have closed my meat market until August 1st, when the same will be re-opened. Until then I will collect accounts, and the market will be open for that purpose.

EDUCATIONAL ASSOCIATION

Sessions Taken Up by Discussion of Various Topics.

Los Angeles, Cal., July 10.—The members of the National Educational association spent the entire day in the sessions of the twelve different departments. Scores of papers were read upon a multitude of subjects and discussion of the topics followed.

Unless something unforeseen occurs the convention will elect Superintendent E. G. Cooley of the Chicago public schools president for the ensuing year, accept the incorporation provided by act of congress with its constitution and by-laws and select Cleveland as the place for the next meeting.

FROM AN UNKNOWN CAUSE

Two Big Brick Buildings in Indianapolis Collapse.

Indianapolis, July 8.—Two brick buildings three stories high located near the northwestern corner of Meridian and Maryland streets in the center of the wholesale district collapsed from some unknown cause, resulting in a loss of \$200,000. A subsequent fire in the debris entailed a considerable portion of the loss. The buildings were among the oldest in the city.

They Quit Right There.

The late Andrew J. Dam, a well known hotel man of New York, was, at the time of the civil war, proprietor of a hotel in New Bedford. A number of colored citizens interested in the formation of a military company called upon him and informed him that they would be glad to form the company and allow him to suggest the name, provided he would pay for the equipments.

"Congressman T. D. Elliott has fitted out a company of white men, and throughout the war they will be known as the Elliott Light Guards," said the spokesman of the colored men.

"Well," said Dam, "if I am to equip and organize this colored company, I shall insist that they be known as the Dam Black Guards."

The company was never organized.—New York Tribune.

A Trade In Learning.

"I want you," said the old farmer, "to give the boy 'bout six or eight dollars' worth o' learnin'." For instance, I'll start him on three bushels o' corn; then, when that's out, I'll keep him a-movin' on a couple o' smokehouse hams, an' I may decide to give you a young heifer to learn him writin' an' a home raised cow for a little 'rithme-ic."

"Do you want him to learn any of the higher branches?"

"Well, after he climbs a leetle you might throw in 'bout a bushel or two of 'em, or say 'bout a quarter o' beef's worth."—Atlanta Constitution.

Are You one of Those

Who think that Fly Paper is an absolute

Necessity in the Home.

If you are, don't you also know that FLY PAPER does not keep away all the flies. Well you are just the one we have provided a remedy for. We assure you that with Wheeler's Adjustable Screens on your house, fly paper is useless. We want you to let us show you their points of superiority over common screens.

MORE WORK FOR THE ACCOUNTANTS Federal Law Requiring Uniform Accounting Applies to Minnesota & International AUDITOR'S CLERKS ARE BUSY Nearly 1,000 Separate Accounts Have to be Kept Under the Hepburn Law

The clerks in the office of the auditor of the Minnesota & International are not at all happy over the provisions of the Hepburn bill which compels uniform systems of accounting for all railroads and other agencies engaged in interstate commerce. While the M. & I. has no lines outside of the state of Minnesota the fact that it receives shipments of goods to and from points outside of Minnesota renders it amenable to the provisions of the laws governing interstate commerce. The part of the Hepburn bill providing for uniform system of bookkeeping requires of the force in the auditor's office the keeping of a large number of accounts. For instance, one general account which formerly contained six sub-accounts now contains about thirty. The additional amount of book work demanded can easily be seen by anyone in the least acquainted with accounting and this extra work coming onto the office just at the time when the clerks would like to get their summer vacations is extremely exasperating.

NOT GUILTY Jury in the Municipal Court so Decides in the Case of the State vs. Lawrence Peterman

Lawrence Peterman, who was arrested on a warrant sworn out by Wm. Milligan charging him with having maliciously destroyed the complainant's real property located on Grove street by chopping down the kitchen, had his trial before a jury in the municipal court this forenoon. The jury consisted of John Cochrane, J. M. Elder, H. Squires, James Parker, A. Headman and Fred Ott. County Attorney Warner appeared for the state and Geo. H. Gardner appeared for the defense. The case was given to the jury about 11 o'clock this forenoon and after brief deliberation they brought in a verdict of not guilty.

Persson-Warren Ernest Persson and Sylvia Warren were joined in wedlock at the home of the bride's parents, Mr. and Mrs. W. A. Warren, at Vineland, Mille Laes county. The father of the bride, a just of the peace, performed the ceremony. W. V. Warren, a brother of the bride, was best man and Miss Minnie Warren, a sister, was bridesmaid. The affair was a quiet home wedding, there being none present but immediate relatives of the bride and groom. The bride was beautifully gowned in white silk with lace over-dress and wore white slippers and carried white roses. The groom was faultlessly attired in black. After the ceremony the entire party partook of a bountiful wedding supper, after which the evening was pleasantly spent in social converse. The groom is a prosperous farmer of the town of Garrison, Crow Wing county, and the bride one of Crow Wing county's successful teachers. The happy couple will spend a few days outing at the lake after which they will be at home at the farm of the groom near Dykeman. Both bride and groom have a host of friends who will unite in wishing them joy and happiness.

COMMISSIONERS PROCEEDINGS Proceedings of the Meeting of the Board of County Commissioners Held July 8, 1907

OFFICIAL Board met at 10:30 o'clock a. m., all members present except Commissioner Andrews. Upon reading of the minutes of the last regular meeting, same were approved as read. Attorney Larson and others as a committee from the Commercial Club addressed the board urging an appropriation from the county to aid in making a suitable county exhibit at the state fair. Question arose as to whether the board had the right to make such an appropriation, and to whom it should be made in the absence of any local agricultural society. Requisitions for supplies at the poor farm were read and same ordered purchased. The following report of the poor farm for the month of June was read and accepted. Farm credit— 13,390 pounds of hay \$ 53 56 745 pounds of pork 59 60 Baled straw 56 00 40 pounds of butter 8 00 Total \$177 16 Present number of inmates 2 Average for the month 2 Credit by keeping of same 60 days at 40c \$ 24 00 Farm debtor— John McCullough, salary \$50 00 Ralph Durham, salary 30 00 Sam Bassford, salary 30 00 Elizabeth Franklin, domestic 8 00 Total \$118 00 Bond of W. A. Marte, as deputy coroner in the sum of \$500.00 with D. M. Clark and R. T. Clark as sureties, was read and duly approved. Bond of Ella H. Polk, as clerk to the judge of probate in the sum of \$500.00 with Milton McFadden and M. K. Swartz as sureties, was read and duly approved. D. M. Rudd appeared with County Supt. J. A. Wilson and represented that he lived in district Number 57, and had no passable road to send his children to the school house. Motion made and carried, that Commissioner Krech be appointed to investigate the matter and report at the next regular meeting. Petition signed by forty or more citizens of Bay Lake and Deerwood was presented asking for an appropriation of \$150.00 for building roads. Same was placed on file with other similar ones from other towns. Matter of the road which had been closed up at Geo. Senn's place near Leak's station was referred to the county attorney with request that he notify the parties to open same till the new road could be made passable. In the matter of the proposed new road in township 135, range 27, known as the Stropp road, it appearing that notices had not been posted the requisite 30 days, a motion was made and carried, that final hearing be adjourned to the September meeting of the board and the auditor was instructed to post notices to that effect. W. R. Heron and others appeared and complained that ditch Number 10 was not adequate to drain Red Sand lake, and objected to final acceptance by engineer. On motion final report of the engineer was accepted, but it was decided to clean out two or three stations below Red Sand lake. The following resolution was introduced by Commissioner Reid and seconded by Commissioner Krech and unanimously adopted by a vote of ayes and nays. WHEREAS the contract for the construction of ditch Number 10 was awarded to G. G. Tyrrell, contractor, and said ditch has been completed and engineer's report accepted. AND WHEREAS said G. G. Tyrrell has in writing ordered the payment of the sum due him on said contract of \$148.25 to Chas. W. Clark and charge same to Tyrrell, and WHEREAS said Tyrrell has also assigned to the O'Brien Mercantile company, of Brainerd, all sums that may become due to said Tyrrell on said contract, said assignment bearing date September 8th, 1905, and WHEREAS others have filed written orders for different amounts subsequent to the assignment to the O'Brien Mercantile company, viz? To Chas. Dugan, \$28.65 dated December 22nd, 1905. To H. W. Linnemann \$30.00 dated December 1st, 1905. To M. J. Reis \$36.00 dated December 22nd, 1905. To Mike Peterson \$110.55 dated December 11th, 1905. AND WHEREAS there are other labor claims and the full amount is undetermined at this time, and as there are different claimants for the said amount due on said contract, the board of county commissioners are unable to determine who is entitled to said monies, but stand ready and willing to pay the same when it can determine who the proper parties are to receive the same. WHEREFORE it is hereby resolved that the money be withheld until the aforesaid parties shall have determined to whom it is to be paid by judgment of the district court. Board adjourned until 2 o'clock p. m. All members present. Petition for a new road in township 134, range 28, known as the "Temple" road, came up for final hearing. It appearing that notices were posted according to law, and committee appointed to view same reported in favor of said road, and no one appearing to object, motion was duly carried, that petition be granted and the same is hereby ordered granted, and ordered surveyed. Petition for road between township 133, range 29, and township 134, range 29, known as the "Nels Larson" road came up for final hearing. The committee appointed to view said route reported in favor of said road and suggested a change around two pond-holes. Upon motion duly carried, the petition was granted and road established and ordered surveyed, with the recommendation that the surveyor lay the road around the two mud holes aforesaid. Moved and seconded that Commissioner Krech be authorized to let the work on said road not to exceed \$50.00 expenditure. Carried. In the matter of the proposed road in Deerwood town section 35, to connect with road in section 2, Bay Lake town, the committee to view such route reported favorably. Motion made and carried, that the report of said committee be accepted and road established, and the same is hereby ordered and surveyed at once. Petition to vacate and discontinue certain portions of former road on the aforesaid section 35 and 34 was also granted, and the same is hereby discontinued. Motion made and carried, that contractor A. D. Peterson on ditch Number 13 be granted an extension of 30 days to complete the same. Bids for cement sidewalk and iron fence and raisin sidewalk to grade were opened as follows: Z. J. La Blanc— Cement walk, per square yard 80 cents. Filling to bring sidewalk to proper grade per cubic yard 35 cents. Base for fence, per lineal foot 20 cents. Furnish material and build fence same as that now around court house \$50.00 for the 75 feet. A. Everett— Cement walk per square yard 68 cents. Filling in earth per cubic yard 27 cents (according to city specifications.) On motion the bid of A. Everett was accepted. Motion carried that a committee be appointed to repair the sidewalk on the Mississippi bridge. The chair appointed Commissioner Krech. E. E. Bernard, of Smiley, appeared and requested the board to give some attention to a certain bridge in southeast of northeast section 10, township 135, range 29. On motion it was decided to request the county attorney to notify the town board of Smiley to repair the bridge. Petit jurors were drawn to complete the panel for the present year. The following applications for abatement of taxes were recommended to the state tax commission: Geo. W. Stirwalt \$28.99 Kate O'Connor, valuation reduced \$356.00. Mrs. Tillie Warren \$14.99. C. E. Clark \$10.50. Refundment to C. P. De Laittre was recommended in the amount of \$18.44 for taxes erroneously paid on government land. Resolution was passed applying to the state for a loan of \$3,475.00 for ditch Number 8. Resolutions were also passed changing the time of maturity of bonds in regard to ditches Number 11 and 12 and same were returned to the state auditor. Motion made and carried that L. E. Garrison be appointed superintendent of highways for Crow Wing county. The sheriffs list of uncollected personal property taxes as filed with the Clerk of the Court was presented to the Board and they proceeded to revise said list and canceled such as are so indicated on list returned to the Clerk. The following bills were allowed: St. Hall, repairing bridge \$ 1 00 Slipp-Gruenhagen Co. supplies - poor farm 11 00 Mahlum Lumber Co., plank 3 23 J. A. Wilson, postage 8 00 J. A. STRUCK BY A SQUALL

Sloop Capsizes and Six Men Are Drowned.

ONLY ONE OF PARTY SAVED

Prominent Young Men of Bangor, Me. Accept Invitation to Take a Ride in a Sailing Vessel and All Perish But One.

Bangor, Me., July 10.—Six young men of a party of seven were drowned in Penobscot bay by the capsizing of the sloop Ruth E. Cummeck of Brooksville. The victims are: Harry Dugan, aged eighteen, sophomore in Bowdoin college; Amos Robinson, aged seventeen; Raymond Smith, aged nineteen; Frederick Ringwall, aged nineteen; Royal Palmer, aged nineteen, all of Bangor; William Vague, aged twenty-one, South Brooksville.

The six Bangor youths recently went to the Hersey Retreat at Sandy Point to spend the summer. They were invited by William D. Vague of South Brooksville to take a ride in his sloop to Isleboro. The sloop had reached the point off Castine when she was struck by a sudden squall and capsized.

L. D. Hall of Bangor succeeded in clearing himself from the craft and after swimming for three-quarters of an hour was rescued by a tug. The others sank within a few minutes. The victims were members of prominent families.

BAIL DENIED SCHMITZ.

San Francisco's Former Mayor Must Remain in Jail.

San Francisco, July 10.—Judge Dunne has refused to admit Mayor Schmitz to bail and denied him the privilege of visiting his attorneys. Schmitz appeared in court to ask for bail and to answer the indictments charging him with accepting bribes from the gas company and the United Railroads. In the first he failed. The second was a formality and was carried through without incident.

Attorney Drew offered motions to set aside the indictment and to stay the proceedings. They are identical in terms with those filed in the other cases. Then he offered a stipulation that all proceedings taken before Judge Lawler in the gas, trolley and telephone cases should be considered as if made on behalf of Schmitz. This Attorney Johnson for the prosecution readily agreed to.

Johnson then moved that all the motions be submitted for decision and Judge Dunne announced that a continuance would be granted for a week for the purpose of enabling him to look over the record. Formal application for bail will again be presented. The application went over at the request of the district attorney, who wished to file counter affidavits.

Schmitz left the courtroom with his attorneys on his return journey to the county jail, where he will have to wait until the papers for his appeal are prepared. They are now in the hands of a printer and will be ready Saturday.

CONVENTION WILL BE HELD

To Elect a Successor to the Convicted Mayor of San Francisco.

San Francisco, July 10.—With a view of curing the anomalous situation in the municipal government resulting from the graft prosecution, it was decided by District Attorney Langdon and his associates to invite the commercial and labor bodies of the city to send delegates to a convention that is to be called in a few days for the purpose of choosing a mayor who will fill out the unexpired term of Mayor Schmitz. Supervisor Baxton, who was elected acting mayor by the board of supervisors, will hold office until a mayor is chosen.

STORM AT LOUISVILLE.

Kills One Man and Injures Several Other Persons.

Louisville, Ky., July 10.—A terrible wind storm that burst upon this city brought death to one man and injury to several other persons.

The man killed was Frank H. Lehmann, an employe of the National Casket company, who was crushed by a falling cornice. The property loss is roughly estimated at \$250,000.

Many horses and mules were killed, buildings were unroofed, smaller structures were blown down and unprecedented damage done to shade trees all over the city. The records of the weather bureau show that the maximum velocity of the wind was sixty-eight miles an hour and the wind blew at the rate of sixty miles for fifteen minutes. Several streets are impassable. Street car service was suspended for several hours.

Both telephone companies report a serious interruption to their service. No advices have been received from the surrounding country. Jeffersonville, Ind., across the river, escaped the full force of the storm, but the damage to property in New Albany is estimated at \$50,000, the heaviest loss being sustained by the Ohio Falls Iron company. Three churches and one schoolhouse were unroofed in New Albany.

Four Children Perish by Fire.

Suisson, Cal., July 10.—The four children of Mr. and Mrs. Charles Campbell of Suisson lost their lives in the burning of their home. The parents barely escaped.

THOUSANDS IN LINE.

Big Parade of Knights Templars at Saratoga.

Saratoga, N. Y., July 10.—With 50,000 spectators lining the avenues and the streets brilliantly decorated, 15,000 Knights Templars paraded here. It was the greatest event of the triennial convocation of the grand encampment Knights Templar which is being held here this week. On the official reviewing stand with the Earl of Euston of London, Eng., were Grand Master George M. Moulton of Chicago and John B. Trossador, grand master of the Priory of Canada, and Governor Charles E. Hughes.

For three hours the knights were in procession before the reviewing stand. Two hundred carriages conveyed the members of the grand commanderies of forty-two states and territories. Three hundred horses were used by the aides. Fifty-seven bands comprising 1,500 musicians played unceasingly during the parade. To care for any who might fall out of line ambulances and dozens of automobiles with first aid to the injured corps accompanied the marchers.

The services of the hospital corps were required in but four cases, a record for a triennial convocation. None of the accidents were serious.

After the parade the first session of the grand encampment was held in the town hall in which Governor Hughes formally welcomed the knights to the state.

KING EDWARD'S ESCORT.

Arrest Suspicious Character Who Was Hiding Near a Residence.

Holyhead, July 10.—Officers who are accompanying King Edward and Queen Alexandra on their tour took a suspicious acting individual into custody. The man had hidden in the bushes alongside the approach to the residence of Sir Richard Bulkeley just before the arrival of the king and queen. As soon as he was discovered he made frantic efforts to escape, but was captured after a lively chase and lodged in jail. The police had difficulty in protecting the prisoner from the vengeance of an excited crowd of people. The identity of the man has not been divulged.

TELEGRAPHIC BREVITIES.

Emperor Nicholas of Russia and his family will start Tuesday on a cruise for the Norwegian fjords.

The hotel belonging to the Isthmian canal commission at Empire on the line of the canal has been destroyed by fire. Loss, \$50,000; partially insured.

Ellesley, the country home of George C. Wallace, a capitalist, at Arcadia, Ky., has been destroyed by fire. Loss, \$50,000; partially insured.

Emory, the fourteen-year-old son of Thomas Norton of the St. Paul city treasurer's office was drowned in a small lake at South Park, Minn., while bathing.

H. P. Whitney's Dinna Ken easily won the Lawrence Realization stakes of \$16,380 at Sheephead Bay, defeating the heavily played Whitney gelding Frank Gill.

BEAUTY IN FIREWORKS

Designs For the Fourth to Be Prettier Than Ever.

NOVELTIES OF SEVERAL KINDS

Twelve Pound Rockets That Explode, Releasing Bells and Crescents of Diamonds—Japanese Aerial Bombshell For Day Use—Finer Skyrockets.

When the Fourth of July comes this year dodge your friends. Go just as far away from them as you can, without paying railroad fare, because it's probable that your friends will be loaded with more noisy things than you ever dreamed of, says the Kansas City Star.

If your cigar goes out don't ask for a match. You may get one that will explode like a miniature bomb or that will crack and sputter like a bunch of small torpedoes, or you may get a box, a harmless looking match box, handed you which when opened will explode, sending a shower of confetti in your eyes and nose and ears.

The laws against dangerous explosives have made changes necessary in Fourth of July fireworks. Few of the great cannon crackers or the large torpedoes with dynamite are to be offered this year. Instead there are things that fuse and open into "flower pots"; Japanese swimming fish, made of wax, that will swim in a bowl of water and then burst; triple girandola which when placed on top of a pole revolve rapidly, sending out millions of sparks, and then rising high in the air, still revolve and illuminate the sky.

But the prettiest of all is a sparkling stick, known as the "bright light sparklets," made in Germany. It is perhaps eight inches long and burns nearly a minute, sending out countless of very bright sparks, which explode into stars. There is no danger in the sparks. They may pop all around your eyes without hurting. Along the same line is "the Japanese acrobat," a small stick which is to be stuck in the ground. When lighted a series of strange acting, colored fire streaks, twisters, wiggles, all squirming in the air, dart from it.

The skyrockets and roman candles this year are more gorgeous than ever. The peacock plume rockets, for instance, rise like an Eiffel tower of fire to a great height and with an explosion form a gorgeous veil of feathery plumes reaching nearly to the ground, embellished with topaz and emerald coronets. Beautiful figures are intertwined in the flight, and the exhibition ends with a volley of salutes. These rockets weigh six or eight pounds and cost \$1 and \$1.50 each.

A twelve pound rocket explodes high in the air, releasing balloons, crescents of diamonds, Jacob's ladders and balls of fire, and then bursts into a sort of flower pot. These rockets are the largest made and cost \$4 each.

An amusing and pretty display is a Japanese aerial bombshell for use during the day. Fired from mortars, they ascend high in the air, and when they explode small paper figures, such as rabbits, frogs, mice, elephants and crocodiles, in the form of balloons are released and float slowly to earth. These little paper animals will interest children and afford a chase in their capture.

The city ordinance in Kansas City permits firecrackers not more than four inches in length. Within this size comes the "Russian bombshell," the "little red devil" and the "Hooligan battery." These are small crackers, but they explode with a loud report. The old "bligger chasers," fireflies, snake nests, grasshoppers, doral mines, pin wheels and flying fish are in the stores in great numbers.

"There are more things for joking than ever have been shown," said H. F. Schmelzer of an arms company the other morning. "The greater part are made in the United States. There is less noise in them than most of those used in former years. Fireworks in general are prettier this year than ever. One of the best ordinances ever passed in Kansas City was that prohibiting cannon crackers and blank cartridges."

Holland Sea Signals.

Holland seems to be pioneering a new development of sea signals which may render coast lightships of double utility to vessels in times of fog, says the London Globe. At a point of the North sea northeast of Texel island is moored the Dutch lightship Haaks, which for some days now has been equipped with a novel system of submarine signals by means of sunken bells. In fog, snow or hail or whenever from any cause the weather is judged "thick" enough these bells can be sounded once every three seconds. The system has been installed as a practical working test, and if the results are deemed to be good enough it will be adopted generally on all Dutch lightships—perhaps also on those of Belgium.

At Meat.

Well, good for Dr. Wiley too! His system really ought to do a heap of good the way things now are going. And quickly solve a problem that has left some doubt just where we're at. Because there seemed no way at all of knowing.

We're told not to be cheery, but To order up a cheaper cut. And we'd be glad enough, you know, to do it. But what we never yet could learn Till now, though done unto a turn. Is how we e'er could figure out to chew it.

But Dr. Wiley's talk so wise Most certainly now simplifies The problem, and we're glad to see him felt it. So, why should we e'er stop to chew That tough meat when the thing to do Is to bolt it?

Dodged the Mustard Pot.

During the rehearsals of a pantomime in a Scottish town (Glasgow, I think; Glasgow has always been an eventful place to me) a child was wanted for the Spirit of the Mustard Pot. What more natural than that my father should offer my services? I had a shock of pale yellow hair, I was small enough to be put into the property mustard pot, and the Glasgow stage manager would easily assume that I had inherited talent. My father had acted with Macready in the stock seasons both at Edinburgh and Glasgow and bore a very high reputation with Scottish audiences. But the stage manager and father alike reckoned without their actress! When they tried to put me into the mustard pot I yelled lustily and showed more lung power than aptitude for the stage.

"Put your child into the mustard pot, Mr. Terry," said the stage manager. "Hang you and your mustard pot, sir," said my mortified father. "I won't frighten my child for you or any one else."

But, all the same, he was bitterly disappointed at my first dramatic failure, and when we reached home he put me in the corner to chasten me. "You'll never make an actress!" he said, shaking a reproachful finger at me.—Ellen Terry in McClure's Magazine.

Preferred the Baby's Voice.

A New York scientist, the father of a large and growing family, has his troubles. One evening his youngest was holding forth in her best style. The mother could do nothing with the child, so the man of science went to the rescue.

"I think I can quiet little Flora," he said. "There's no use humming to her in that silly way. What she wants is real music. The fact that I used to sing in the glee club at Yale and sing well, too, may make a difference."

Accordingly, the professor took the child and, striding up and down the room, sang in his best manner. He had not finished the second verse of his song when a ring was heard. The door was opened, and there stood a girl of fourteen, who said:

"I'm one of the family that's just moved into the flat next to yours. There's a sick person with us, and he says, if it's all the same to you, would you mind letting the baby cry instead of singing to it?"—Success.

A Considerate Musician.

Many stories are told of the jealousy and ill feeling among musicians, so it is refreshing to note that at least one genius did not fall in good natured appreciation of a fellow artist. It is related how Rossini, walking one day on the boulevard with the musician Braga, was greeted by Meyerbeer, who anxiously inquired after the health of his dear Rossini.

"Bad," answered the latter. "Frightful headaches, legs all wrong."

After a few minutes' conversation Meyerbeer passed on, and Braga asked the great composer how it happened that he had suddenly become so unwell.

Smilingly Rossini reassured his friend. "Oh, I couldn't be better. I merely wanted to please Meyerbeer. He would so like to see me go to smash!"—St. Louis Republic.

Why They're Trams Abroad.

"Abroad," said a tourist agent, "you must call street cars trams and street railways you must call tramways. If you speak of trolleys over there, you won't be understood. The word tram must puzzle the average etymologist. It derives from a man's name—Outram—Thomas Outram. Outram lived in Derbyshire, and in the beginning of the last century he invented a peculiar sort of track that diminished the friction between wheels and roadbeds. These tracks of Outram's, though nothing like a trolley track, were called first outtramways, then tramways, and when street lines and street cars came into existence they were dubbed respectively tramways and trams."

A Crocodile in a Tree.

An African hunter once found a large crocodile hanging in the fork of a tree about ten feet from the ground. As the place was fully half a mile from any water, it was difficult to account for the crocodile's strange position. When questioned upon the subject, the natives explained that it was put there by an elephant. It seems that when the elephants went into the Lake Ngami to bathe the crocodiles are in the habit of worrying them and biting their legs. Sometimes when an elephant is annoyed beyond endurance it picks up its tormentor in its trunk, puts it among the branches of a tree and leaves it there.—London Graphic.

Trees and the Air.

According to a reliable computation, a single tree is able through its leaves to purify the air from the carbonic acid arising from the respiration of a considerable number of men, as many as a dozen or a score. The volume of carbonic acid exhaled by a human being in the course of twenty-four hours is estimated at 100 gallons, and a single square yard of leaf surface, counting both the upper and under sides of the leaves, can decompose about a gallon of carbonic acid in a day.

A Legacy.

"What's your fare?" asked old Flintskin of his caddy the other day and was met with the stereotyped reply: "Well, sir, I will leave that to you." "Thank you, you are very kind," said old Flintskin, buttoning up his pockets and walking off. "You're the first person who ever left me anything yet."—London Mail.

Hard Luck.

Mrs. Dash—Mother says that she wants to be cremated. Dash—Just my luck! I haven't a match with me.—Smart Set.

IMPOVERISHED OXFORD.

Lord Curzon, its Chancellor, Asks For a Gift of \$1,250,000.

Lord Curzon, chancellor of the University of Oxford, has made an appeal on her behalf for \$1,250,000. Oxford is poor, and so is Cambridge, but Oxford is the poorer of the two. Oxford is so poor that without more income she must remain the teacher of the humanities and mathematics, as she has been, while even so she cannot do the familiar tasks as well as they used to be done. As to the new studies, especially the studies in science, her income is not large enough yet to permit her to undertake them. Lord Curzon says that a good deal more than \$1,250,000 is needed, but this amount represents an absolute and immediate need.

The first response to the request is made by Mr. Astor—the London Astor—who gives \$50,000. It is a wonderful comment, observes Harper's Weekly, on the indifference of Englishmen to the fact that they have taken for so many centuries all that their universities have to give without making due pecuniary offering to relieve their needs. It is so different here, where the gifts to teaching come both from those who have been taught and those who wish that they had had the opportunity to be taught. Giving to education in the United States has not been always wise, but it is growing wiser, while it has hardly begun in England. To name Oxford is to recall one of the most precious centers of light and learning, of learning and of liberty, that men have ever possessed. And that this leader of religion and of thought, this inspiring maintainer of intellectual freedom, should be begging for the pence that will keep her clad in the garments of the day speaks ill for the reverence and the thoughtfulness of the many rich among her army of living scholars.

ENTERTAINED MARK TWAIN

Staff of Punch Gives Dinner in Honor of American Humorist.

London, July 10.—The staff of Punch entertained Samuel Clemens (Mark Twain) at dinner. The guests sat down at the famous diningroom table that is carved all over with the initials of generations of the most famous of British writers. A pleasing incident of the evening was the presentation to Mr. Clemens by little girls of the framed original of a cartoon that recently appeared in Punch in which Punch is portrayed offering a toast to Mr. Clemens.

Mr. Clemens was the guest at luncheon at the house of commons. His host was Sir Benjamin Stone, member of the house for East Birmingham.

Peculiar Accident to a Boy.

St. Paul, July 8.—Firecrackers, potash and matches in his hip pocket and a violent application of shoe leather by his mother caused serious injury to Henry Johnson, the seven-year-old son of H. Johnson, a brakeman on the Omaha railway. The boy was seriously burned and blistered. His clothing was ignited by the peculiar accident, and had it not been for the prompt assistance rendered by a neighbor who threw a carpet over the burning boy and assisted in tearing away his clothes, he might have received more serious injuries.

Senator Bacon Re-Elected.

Atlanta, Ga., July 10.—Senator A. O. Beacon was re-elected for the full term beginning March 4, 1908. Senator Bacon was renominated at the recent primaries and this session being the first sitting of the legislature since the primaries the nomination was taken up in both branches separately and ratified unanimously. A joint session will be held to ratify the election.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Dr. F. J. Cheney & Co., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by him. W. L. DILLINGHAM, Wholesale Druggist, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price, 75c per bottle. Sold by all druggists. Take Hall's Family Pills for constipation.
